Projects

EngineeringProject:

“DESIGN AND ANALYSIS OF MANUALLY OPERATED REAPER MACHINE”

Description:

Our project purpose to reduce the human effort for cutting the unwanted grasses and weeds to ensure the safety of workers and also reduce the cutting time consumption with ecofriendly.

DiplomaProject:

“AUTOMATIC PNEUMATIC PORTABLE SLOTTING MACHINE” ’

Description:

The main target of project is to improve the version of a mini pneumatic slotting machine which will be more efficient for die makers and pattern makers. This project aims at saving initial cost by providing pneumatic Cylinder for power. This requires no other means of power to drive the slotting machine and executes the slots in the job automatically to increases the productionrate.
